

Cabin Rules, RRRRA

Updated December 2020

These cabins serve as **emergency shelters** as well as for recreation; refuge from the elements must be offered to anyone who is in dire need.

- Pack out all your garbage--including empty propane bottles, leftover food and cigarette butts.
- No smoking or candles in the cabins.
- Dogs are not permitted at the cabins or in Stag Leap Provincial Park, Nov. 1-Apr. 30
- Day users visiting Ripple Ridge Rec Site are--in normal times--permitted to use the cabins briefly to warm up and eat lunch. However, due to the COVID-19 pandemic, cabin users who have the cabin booked overnight for their family will have the right to turn away day users. **Emergency situations will negate this rule.**
- Check-out time is 12:00 noon. If it is your check-out day and your group will be touring for the afternoon, please pack up your belongings and stow them out of the way of the incoming group.
- Keep noise levels reasonable during the overnight hours. There is likely another group staying in the neighbouring cabin, and they may be planning to shred at the crack of dawn.
- Store food in the cabin or in the outdoor lockbox only, in order to reduce wildlife attractants. Do not leave any food in the cabin or lockbox when you leave.
- Leave all tools inside the cabin when not being used.

In consideration of others, please note:

- Snow around the cabin is used for making drinking water. PLEASE do not soil it.

- Keep the cabin clean: sweep floors, empty dishwater, wipe down table/counters.
- Keep the toilets clean and tidy.
- When checking out of the cabin—ensure the woodstove is safe, turn off the lights, secure the door, pack out all garbage.

Please report any maintenance issues to the Recreation Officer (250-825-1212) or to Ripple Ridge Recreation Association at ripplesridgehut@gmail.com

Thank you for your cooperation, and have a great stay!
